

HYBRID VEHICLE INCENTIVE PROGRAM

As part of the Bayview @ Coal Harbour and Gateway Property Management sustainability efforts we are constantly looking for opportunities to promote environmentally friendly practices.

One of our initiatives is to promote alternative vehicle technologies. If you have made a choice to be environmentally friendly by choosing to drive a hybrid vehicle we would like to acknowledge that choice and reward you by offering a 20% discount on your monthly parking rental charge.

We define a hybrid vehicle as one that has an electric motor as the primary propulsion system with a regular gas engine as a backup. Flex fuel vehicles do not qualify for this reward at this time.

If you drive a hybrid vehicle and wish to be rewarded with the parking discount please contact the Bayview @ Coal Harbour on-site management team with your vehicle details.

Thank you for your choice and we look forward to your continued cooperation towards a healthy and sustainable community.

Bayview @ Coal Harbour management team
